

STUDENT DROPOUT RISK ASSESSMENT REPORT

Generated on January 30, 2026 at 11:17 PM

Student: Rahul Sharma
Roll Number: 2023CS101
Course: B.Tech Computer Science | 2nd Year

■ **CONFIDENTIAL:** This report contains sensitive student information and must be handled according to institutional privacy policies and data protection regulations.

■ EXECUTIVE SUMMARY

Rahul Sharma, a 2nd-year B.Tech CS student, is at a **HIGH** risk (82%) of dropping out, primarily driven by a significant academic decline (CGPA from 6.2 to 4.8), coupled with low attendance (58%) and clear indicators of financial stress (2 months delayed fees, low family income). These issues are compounded by mental health concerns, as evidenced by multiple counselor visits for stress, leading to low engagement with academic resources.

■ Key Concern

The combined impact of severe academic decline and unaddressed financial stress, which is likely exacerbating mental health issues and disengagement.

■ Immediate Action

An urgent outreach to Rahul Sharma and his immediate family is required within 48 hours to understand his current situation and offer immediate support.

■ STUDENT INFORMATION

Name	Rahul Sharma
Roll Number	2023CS101
Course	B.Tech Computer Science
Year	2nd Year
Family Income	■3,00,000/year
Parent Education	High School
Accommodation	Day Scholar
Distance from College	45 km

■ ACADEMIC PERFORMANCE

■ Current CGPA	4.8
■ Previous CGPA	6.2
■ Attendance	58%
■ Assignments Submitted	4 out of 10

■ ENGAGEMENT METRICS

■ Library Visits	0 visits in 2 months
■ Last LMS Login	15 days ago
■ Extracurricular	No participation
■ Counselor Visits	Visited 2 times for stress
■ Fee Status	2 months delayed

■■ RISK ASSESSMENT

RISK LEVEL	HIGH	82%
------------	------	-----

Risk Factor Breakdown:

Academic Decline - 35% Significant drop in CGPA from 6.2 to 4.8
--

Low Attendance - 25%

Attendance at 58%, below minimum requirement

Financial Stress - 20%

Fee payment delayed by 2 months

Mental Health Concern - 15%

Multiple counselor visits for stress

Low Engagement - 5%

No library visits, no extracurricular participation

Risk Factor Contributions

■ ROOT CAUSE ANALYSIS

Primary Causes:

- Significant financial strain impacting student's ability to focus and potentially leading to delayed fee payments.
- Mental health challenges (stress) likely stemming from financial pressure and academic struggles, leading to disengagement.
- Lack of academic motivation and engagement, evidenced by declining CGPA, low attendance, and minimal LMS/library activity.
- Insufficient proactive support or early detection of distress signals before reaching a critical stage.

Interconnections:

Financial stress appears to be a primary trigger, directly causing delayed fee payments and indirectly contributing to mental health issues. These mental health concerns, in turn, lead to academic disengagement, poor attendance, and a significant drop in academic performance, creating a negative feedback loop that increases dropout risk.

Unique Concerns:

The drastic drop in CGPA from 6.2 to 4.8 in a single year, coupled with zero library visits and a 15-day gap in LMS login, indicates a severe and sudden withdrawal from academic life. The two counselor visits for stress further highlight a critical psychological burden unique to his situation.

■ DETAILED INTERVENTION PLAN

■ Immediate Actions

within 48 hours

1. Personalized outreach to Rahul Sharma via phone and email to schedule an urgent one-on-one meeting.

■ **Responsible:** Academic Advisor / Student Welfare Dean

■ **Expected Outcome:** Establish direct contact and secure a meeting to understand the student's perspective and immediate needs.

2. Inform relevant faculty (course coordinator) about the high-risk status and potential need for academic adjustments.

■ **Responsible:** Academic Advisor

■ **Expected Outcome:** Ensure faculty awareness and readiness to support academic interventions if required.

■ Short-Term Actions

within 2 weeks

1. Conduct a comprehensive needs assessment with Rahul Sharma, focusing on academic, financial, and mental well-being.

■ **Responsible:** Academic Advisor / Counselor

■ **Expected Outcome:** Identify specific barriers and tailor support strategies.

2. Refer to the Financial Aid Office for assessment of eligibility for scholarships, fee waivers, or emergency funds.

■ **Responsible:** Academic Advisor / Financial Aid Officer

■ **Expected Outcome:** Alleviate immediate financial burden and provide a sustainable financial plan.

3. Initiate regular counseling sessions with a mental health professional to address stress and develop coping mechanisms.

■ **Responsible:** Student Counselor

■ **Expected Outcome:** Improve mental well-being and emotional resilience.

■ Medium-Term Actions

within 1 month

1. Develop a personalized academic improvement plan, including tutoring for challenging subjects, study groups, and faculty mentorship.

■ **Responsible:** Academic Advisor / Faculty Mentor

■ **Expected Outcome:** Improve academic performance and re-engage with coursework.

2. Monitor attendance and LMS activity, providing gentle reminders and support for engagement.

■ **Responsible:** Academic Advisor / Course Coordinator

■ **Expected Outcome:** Increase active participation in academic activities.

3. Connect Rahul with peer support networks or student clubs to foster a sense of belonging and reduce isolation.

■ **Responsible:** Student Welfare Office

■ **Expected Outcome:** Enhance social integration and overall campus engagement.

■ Long-Term Strategies

ongoing

1. Establish a consistent check-in schedule (bi-weekly/monthly) with the Academic Advisor and Counselor.

■ **Responsible:** Academic Advisor / Counselor

■ **Expected Outcome:** Sustain progress and provide ongoing support.

2. Explore opportunities for part-time, campus-based employment if financial stress persists and academic load permits.

■ **Responsible:** Financial Aid Office / Career Services

■ **Expected Outcome:** Provide supplementary income and practical experience.

3. Provide career counseling and skill development workshops to enhance future prospects and motivation.

■ **Responsible:** Career Services

■ **Expected Outcome:** Boost long-term motivation and career readiness.

■ RESOURCE REQUIREMENTS

■ Personnel Needed:

- Academic Advisor
- Student Counselor
- Financial Aid Officer
- Faculty Mentor
- Peer Tutor/Mentor

■ Time Investment

Approximately 3-5 hours per week initially, reducing to 1-2 hours per week as stability improves.

■ Financial Support

Potential for a partial fee waiver, scholarship, or emergency fund allocation; funding for mental health services if not covered by student fees.

■ Academic Resources:

- Access to free tutoring services
- Supplementary course materials
- Flexible academic deadlines (if approved)
- Dedicated study space

■ SUCCESS METRICS & MONITORING

■ Key Performance Indicators (KPIs):

- ✓ Increase in current CGPA by at least 0.5 points by next semester's mid-term.
- ✓ Attendance rate consistently above 75% across all courses.
- ✓ Regular LMS logins (at least 3-4 times per week).
- ✓ Resolution of delayed fee status.
- ✓ Reduction in self-reported stress levels and consistent engagement with counseling.

■ Milestone Checkpoints:

- Successful initial meeting with Rahul within 48 hours.
- Application for financial aid submitted within 1 week.
- First counseling session attended within 2 weeks.
- Academic improvement plan fully implemented within 1 month.
- CGPA improvement observed by mid-semester.
- Fee status normalized within 2 months.

■ Warning Signs to Watch:

- Failure to attend scheduled meetings or counseling sessions.
- Further decline in CGPA or attendance.
- Non-engagement with academic support resources.
- Expressing thoughts of withdrawal or hopelessness.
- Continued delay in fee payment or communication regarding financial status.

■ Re-evaluation Timeline: Bi-weekly for the first month, then monthly for the remainder of the semester. A comprehensive re-assessment at the end of the current semester.

■ PREDICTED OUTCOME

■ Without Intervention	Without immediate and comprehensive intervention, Rahul Sharma is highly likely to withdraw from his B.Tech program due to overwhelming academic failure, unmanageable financial stress, and deteriorating mental health, resulting in a significant loss for both the student and the institution.
■ With Intervention	With timely and sustained support, Rahul Sharma is expected to stabilize his academic performance, manage his financial situation, and improve his mental well-being, enabling him to successfully continue his B.Tech Computer Science course and graduate.
■ Success Probability	70%

■ APPENDIX

Risk Calculation Methodology:

This assessment uses a machine learning model trained on historical student data. The model analyzes multiple factors including academic performance, attendance, engagement metrics, and socio-economic indicators to predict dropout risk with high accuracy.

Glossary of Terms:

Risk Level: Overall categorization (HIGH/MEDIUM/LOW) based on dropout probability

Risk Percentage: Numerical probability (0-100%) of student dropout

Risk Factors: Specific areas contributing to overall risk assessment

Intervention: Targeted action to address identified risk factors

KPI: Key Performance Indicator - measurable metric for tracking progress

This report was generated using AI-powered analysis and should be used as a guide for intervention planning. The predictions are based on statistical models and should be combined with professional judgment.

For questions or concerns, please contact the Student Support Services office.
